## NEMIROFF TODAY

OLD DISTILLERY IN NEMIROV

NEW NEMIROFF DISTILLERY

Today, Nemiroff is one of the world spirits market leaders.

Right at the outset, Nemiroff Company stated its mission as follows, "To be the best quality vodka in the world!" Since then (for over 20 years now), the Company has been consistently following the set goal and has maintained impressive popularity and a highly rational development strategy.

Nemiroff sales geography covers 80 countries worldwide on 5 continents. The Company attributes its success largely to the high quality of its products.

Indeed, despite the seeming ease, vodka production is actually a rather complicated process which involves quite a number of stages and technological aspects. All Nemiroff drinks are produced in strict compliance with the requirements of company's own recipes and have a brand-specific flavor profile.

## PRODUCT QUALITY FEATURES

The Company attributes its success largely to the high quality of its products. Indeed, despite the seeming ease, vodka production is actually a rather complicated process which involves quite a number of stages and technological aspects.

Nemiroff uses the most up-to-date technologies and equipment; it had successfully implemented the International Management system ISO 14000 that minimizes risks of pollution. In November 2008 Nemiroff passed another certification audit and confirmed the right to use the international standards ISO 14000 and ISO 9001.

Nemiroff brand portfolio includes 26 flavors, created for the widest range of customers, and over 40 SKU in all the price segments.
